Powers, yes. Capes, no.

When you're faced with extraordinary crime, there's only one team to call: a group of gifted individuals called Alphas who use unusual abilities of body and mind to solve cases that leave ordinary law enforcement without a clue. But though the team's powers are complementary, their personalities are not, and it's only through the leadership of the enigmatic Dr. Rosen (David Strathairn) that they're able to get the job done. And when they return to Syfy, they'll face new criminals that test their limits.

In addition to Academy Award nominee David Strathairn (*Temple Grandin*, *Good Night and Good Luck*), the ensemble cast stars Malik Yoba (*New York Undercover*, *Why Did I Get Married?*), Warren Christie (*October Road*), Laura Mennell (*Watchmen*), Ryan Cartwright (*Mad Men*, *Bones*) and Azita Ghanizada (*Castle*). The series was created by Zak Penn (writer, *X-Men: Last Stand*).
